

MEDICAL GASES

HEMOCARE

Reliability. Service. Savings. Now more than ever, you'll find it with us.

We're Airgas Puritan Medical. We are the strength of Airgas combined with the more-than-90-year heritage of Puritan Medical. Two names well known in the healthcare world. Now one name with everything you could want from a medical gas and equipment supplier—including an in-depth understanding of your needs as a home healthcare provider. It all adds up to total reassurance you may never have had before from a medical gas supplier.

Two of the major names in the medical gas industry have joined together to give homecare providers the powerful benefit of Airgas Puritan Medical. You'll find it in the reliability that comes from being the country's biggest integrated network of locations and delivery fleets. With the widest offering of medical gases in high-pressure and liquid cylinders. You'll find it in the service-driven ethic of our 500+ associates dedicated exclusively to the medical market. And from their considerable expertise in compliance, equipment operation, and attentive customer service that reassures our homecare customers they have made the right choice in a medical gas supplier.

Now more than ever, you'll find it all with us.

Reliability is critically important to you. That's why it's a priority to us.

Our homecare customers get reliable delivery and flexible scheduling through the vast Airgas Puritan Medical network. We are the top supplier of cylinder gas in the U.S., one of the top suppliers of bulk, and we have more locations across the country than any other supplier. All of this means the convenience of local service supported by assured product availability through our extensive integrated network. Our delivery fleet of 2500 vehicles—including 160 trucks dedicated to healthcare customers—is committed to giving you on-time service and peace of mind. We'll even deliver directly to your patients' homes.

- 800 locations nationwide
- 194 medical fill plants
- 2500 delivery vehicle fleet
- 160 dedicated healthcare delivery trucks
- 500+ associates dedicated to the medical market

In homecare's drive for competitive pricing, we can save you money.

We understand your business and regulatory pressures, including the need to purchase high-quality products within strict cost control guidelines. That's why our size is an added advantage. We are the largest distributor of medical gases in the country and that means substantial economies of scale from our supply chain efficiencies. This gives us the ability to be your lowest total cost provider for a broad range of medical gas, equipment and safety products to the homecare market.

Attentive local service backed by the resources of a vast national organization—that's a distinctive Airgas Puritan Medical advantage.

Attentive customer service is part of our business philosophy and we know that our success depends on it. Each of our nearly 800 locations is committed to providing you responsive, personalized service. Each of our 500 associates is dedicated to exceeding your expectations. It's the attention you might expect from a much smaller company yet it's combined with services that only a very large organization can provide, including:

- FDA and GMP compliance checks
- Training D.O.T. and Safe Handling of Oxygen
- Dedicated Oxygen facilities
- Liquid Oxygen delivered directly to your patient's home or nursing home
- Tracking and maintaining your "customer-owned" cylinders
- 24 hour on-call technicians
- Puritan Plus: liquid oxygen and oxygen equipment home delivery
- Medical Gas Regulators and Equipment
- Safety Products
- Extensive Line of Disposable Products

Airgas Puritan Medical is your natural choice for consistent quality in product, service and total cost advantage. We're working hard to prove that you now have a better choice for medical gases and equipment. And you'll find it with us.

Total reassurance in everything you need from a medical gas supplier. You'll find it with us.
