

RESCUE SERVICES

Preserving Life One Person at a Time

Customized Solutions Backed by Years of Experience.

With over 40 years of hands-on industry experience Airgas On-Site Safety Services provides custom rescue services programs tailored to your specific needs. Rescue services strongly depend on the coordination of manpower, resources and time. Airgas On-Site Safety Services will train your team on site or provide full custom services for your company by covering everything from the planning to the execution of a rescue. Our programs range from confined space to high-angle services, providing you with a full spectrum of rescue scenarios. We provide all the safety and rescue equipment your team might need. From personal protection equipment (PPE), monitoring devices, or welding and cutting equipment, Airgas On-Site Safety Services will meet all of your services, training and supply chain needs.

Airgas On-Site Safety Services delivers the resources and expertise of Airgas added to the Oilind Safety heritage you trust.

Customized rescue solutions...designed to fit your needs.

Airgas On-Site Safety Services works with you in compliance of all OSHA & EPA standards to help you avoid citations or fines. We also develop customized rescue solutions that will be appropriate for your unique rescue operation. Our professionals are prepared to provide a rescue service just about anywhere and in any condition. We are happy to demonstrate our competence in meeting your rescue services requirements.

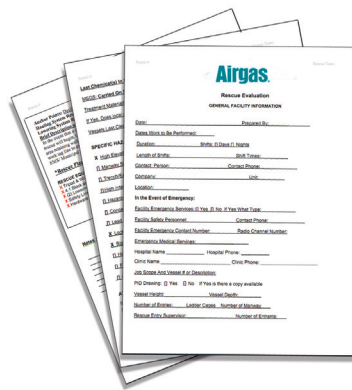

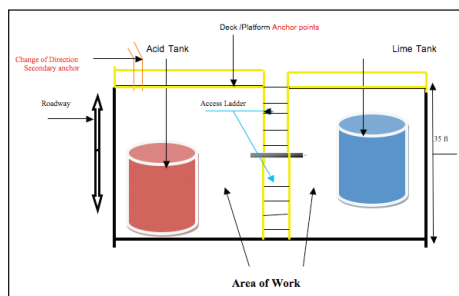

On-site rescue services include:

- Rescue team training
- Fully equipped stand-by rescue response teams
- Liaison assistance between contractor and client safety professionals
- On-site supervision, confined space, respiratory protection and safety compliance training
- Writing of permits, entry procedures and guidelines
- On-site safety monitoring and rescue personnel
- Safety and rescue equipment rentals and maintenance

Sample on-site rescue evaluation

Airgas On-Site Safety Services provides both a visual diagram and written evaluation of the rescue plan to ensure we are ready at a moment's notice to execute the plan when necessary.

Safety...and much more.

With an expansive national footprint and an extensive product line, industrial construction specialist expertise, Red-D-Arc® welding rental equipment, complete industrial gas resources and safety training programs, Airgas On-Site Safety Services provides the complete solution for all your rescue service, MRO and gas supply needs.

Engineering the right solutions for all your safety and turnaround needs.
