SIDE SHIELDS. WE'VE GOT YOU COVERED.

To protect your eyes from workplace hazards, side shields are available for all Armourx frames.

ARMOURX SIDE SHIELDS ARE:

- Tested per ANSI and/or CSA Standards
- Impact resistant
- Resistant to lens cleaning chemicals
- Durable - will not crack or craze over time

Removable side shields are ordered as a separate accessory and each side shield is designed to fit a specific frame. Permanently attached side shields are attached using two different methods, depending on the temple material. Frames with metal temples have side shields permanently moulded onto the temple.* Frames with plastic temples use a decorative rivet to permanently attach the side shields. Both configurations of permanent side shields are attached at the factory, so you won't have to worry about extra little parts needed, or riveting. **NO ASSEMBLY REQUIRED!**

REMOVABLE

PERMANENT FOR METAL TEMPLES - MOLDED
(Side shield is fused to the temple)

PERMANENT FOR PLASTIC TEMPLES - RIVETED

ORDERING SIDE SHIELDS

All Armourx frames are available in 2 configurations
without side shields and **with permanently attached side shields**.
The model number is different for these 2 configurations.

SPARE PARTS

Armourx does not offer replacement temples or fronts. If a frame has been significantly damaged as to require the replacement of a major component, it is impossible to determine if the integrity of the entire frame has been compromised, making the frame unsafe or non-compliant.

PLEASE NOTE that we do provide replacement nose pads, temple tips and screws.
