

Reorder MORE with Airgas.com!

Here at Airgas.com, we recognize that our customers regularly order the same products again and again. So to make things fast and easy, shopping carts can be created from previous orders.

Do I have to individually select all the products in the order? If you want to select all the products on the order quickly, use the 'Select All' button located above the checkbox for the first product. Click this and all products in the order will be selected.

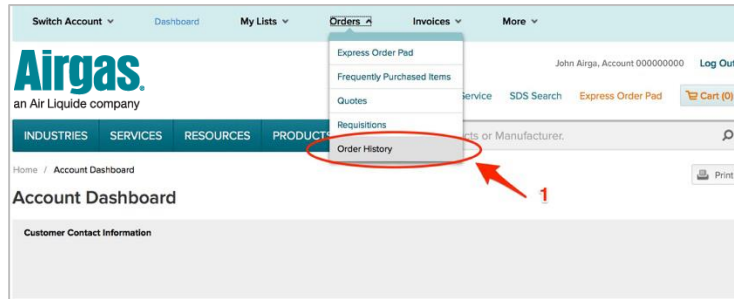

Can I only add products from the order to the cart? No, you can continue shopping and add products as usual.

Do you keep a record of my frequent purchases? Yes, we do. Login to your account, click on 'Dashboard' on the top and scroll down to see your frequent purchases. These can also be selected and added to the cart.

Can I create a shopping list from my order rather than add to cart? Yes, you can. Simply check the product(s) you want to add and click the 'Add to List' button. A pop up will appear giving you further instructions.

Can I combine multiple previous orders into a shopping list? Yes, you can. Simply go into each order in turn, select the product(s) you want to add and click the 'Add to List' button. On the pop up, select the the list. The products are added!

What if an item is grayed out? If an item is grayed out and cannot be added to your card, please contact your sales representative or local branch for further assistance.

Creating your cart from a previous order:

- Login to Airgas.com
- Select 'Orders' from the top toolbar and 'Order History' from the dropdown
- Search for and click on the 'View' button for the order you want to repeat
- View the order detail
- Click on the checkbox to the left of the product description to select the product(s)
- Click on the 'Order Selected' button
- All the selected products are added to your cart and ready for purchase
