

## Easily find your local branch with Airgas.com!

Wherever you are in the country, you need to know where to find your local Airgas branch, so we make it easy with the Airgas.com Find A Branch store locator.

**Why does Airgas need to know my location?** If you enter your location, we will auto-fill the location next time, rather than you needing to enter it in again manually.

**If the location is pre-filled, can I delete it?** Yes. You can delete and enter in an address of your choice.

**Can I choose the type of branch to look for?** Yes. The standard search is set to 'All Branches'. Click on the dropdown to search just for our Medical, Dry Ice or Welding Rental branches.

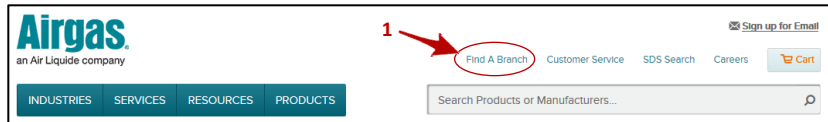

**What if no results are found?** If no results are found, either check your spelling of the address or simply use a Zip Code.

**What if no results are found in my search area?** Try expanding your search area to the next mileage radius in the dropdown.

**Can I get driving directions?** Yes. Click on 'Driving Directions' and a separate browser tab will be launched with the driving details from your location to the branch.

**Can I zoom in and out on the map?** Yes. Use the plus and minus signs to zoom in/out.

**For further help:** Please contact the customer service team at "[GET HELP](#)" or call 1-866-935-3370 to speak to a representative.

### How to find your local branch:

- Navigate to Airgas.com
- On the top of the screen click on 'Find A Branch'
- A pop up will appear asking for an address
- On certain devices you will be asked if you want to share your location with Airgas.com, if this happens click 'Yes'
- Enter an address, select a distance from the dropdown, select the type of branch and click 'Find Branch'
- All branches within the distance will be shown on a map with their full address, phone number and distance
