

## Easily check product availability with Airgas.com!

On Airgas.com you can check the availability of the products before you place your order.

**Where can I check availability?** You can check on the product search screen, the product details screen, in your lists and in your cart.

**Can I check availability for different package sizes?** You can only check availability for the default package size.

**For further help:** Please contact the customer service team at "[GET HELP](#)" or call 1-866-935-3370 to speak to a representative.

### How to check availability on Airgas.com:

- Login to Airgas.com
- Enter the product name or part number
- On the Product Search page, the availability for products will be shown underneath the 'Qty'
- If the product is available online, then the 'In Stock' message will be shown
- If the product is not in stock online, or you wish to purchase the product locally, then click on the 'Check Availability' link
- A pop-up box will appear; type in your Zip Code, desired quantity and click 'Check Availability'
- The nearest pick up location will be shown with the availability in that location
