

## Construction On-site Support

On your jobsite. At your service.

- On-site welder training and certification
- The right rental program for on-site welders and generators from Red-D-Arc®
- Secure on-site storage for gas cylinders
- Breathing air services and monitoring for confined spaces
- Safety equipment supply, maintenance and management

### Materials and expertise, right where you need them

Get everything you need for the job — right on your site. As part of *OUTLOOK*® Managed Services, our on-site construction support program stocks everything from welding supplies and equipment to generators and high-purity breathing air equipment for short and long-term projects, and helps you manage it all. In addition to supply chain expertise, we also provide on-site expertise for construction tools and supply applications, welding applications, and safety procedures and training.

Whether you have one site locally or multiple sites nationwide, Airgas, an Air Liquide company, delivers and manages everything your job requires.

# On-site Support

## An Airgas store, right on your jobsite

Based on your project goals and forecasted needs, Airgas develops your program, delivers supplies to your jobsite and manages the inventory your construction and maintenance teams need every day. Specially designed, fully-stocked mobile warehouses (Conex units) are delivered right to the jobsite. Barcoding technology tracks cylinder gas and equipment rental deployment and returns, as well as all materials issued to specific users.

You benefit by having all the supplies you need onsite and managed by Airgas personnel.

## Expertise when you need it

Along with supply chain and inventory management expertise, Airgas specialists are available to assist your construction and maintenance teams:

- Construction specialists
- Safety specialists
- Welding process and support specialists
- Welding rental equipment specialists

## A wide range of products for your jobsite

- Industrial cylinders, MicroBulk, and gas and liquid bulk tanks
- Shielding, welding and cutting gases
- Regulators and gas delivery equipment
- Red-D-Arc® welder, positioner and generator rentals
- Airgas On-Site Safety Services equipment rental and servicing, safety training and monitoring services
- Welding filler metals and supplies
- Power tools and industrial supplies
- Thousands of safety items stocked in six Airgas distribution centers providing next-day backup delivery

Whether you need information on a specific weld process, the right tool for the job, or advice on welding shielding gases or safety equipment, we'll help you get the job done.
