

Upstream Oil & Gas

Gases, equipment and services

Where you are.

Where you need to be.

We are here too.

Airgas, an Air Liquide company, is your one-stop shop for specialty and industrial gases, welding hardgoods and equipment, and safety products, including PPE. In addition, we offer innovative value-added services for upstream operations such as supply chain services, training and equipment rental to optimize your performance and service quality, while minimizing complexity and risk.

At Airgas, the quality of our services and the safety with which we deliver them drive everything we do. This is why we ensure compliance with the highest offshore quality and safety standards (DNV, ISO, ABS, IMCA).

As part of the Air Liquide Group and its global capabilities, Airgas brings comprehensive logistical support and industrial expertise to wherever you are, whenever you need it. We operate the largest local footprint in the U.S. with more than 1,100 locations nationwide to provide you a reliable and responsive supply.

Your single-source supplier

Welding products

Welding and cutting gases, equipment and hardgoods

Industrial and diving gases

Available in cylinders, offshore certified lifting frames and packs, and related gas equipment

Bulk supply

Liquid nitrogen, oxygen, argon and carbon dioxide supplied in fixed cryogenic tanks or certified offshore ISO containers

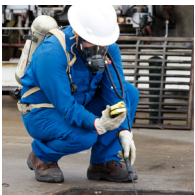

Nitrogen on-site generation

Membranes, Nitrogen Production Units (NPU)

Specialty gases

Pure gases, calibration gas mixtures, stable isotope mixtures, refrigerants and related gas handling equipment

Safety products

Personal Protective Equipment (PPE), monitors and calibration instrumentation, environmental, fire equipment, and more

Extended services

Logistics services, asset tracking, safety services, training, equipment rental, dry ice blasting solutions
