

Airgas | SMARTOP™
an Air Liquide company

Smart, simple,
unique

Simplify your gas cylinder use with SMARTOP™

Save time

- Quickly start and stop gas with on/off levers
- Easy handling thanks to ergonomic cap

Save gas

- Eliminate gas loss with on/off levers
- Check content at a glance with permanent pressure gauge

Work safely

- Emergency cut-off
- Protected valve

Protect gas quality

- RPV eliminates backflow contamination
- NRV protects quality during fill and prevents tempering

SMARTOP™

Simple, clever valve

On/off levers

- Easy opening
- Immediate gas cut-off
- On/off status at a glance
- Lever 1 (orange) for low-flow and low-pressure purge
- Lever 2 (red) for full opening

Permanent gauge

- At-a-glance content monitoring
- View cylinder content even when flow is stopped

RPV/NRV function

- Keep minimal pressure in the cylinder
- No back-flow contamination during use and storage

Ergonomic cap

- Easy handling of the cylinder
- Permanent, reliable protection for the valve

Instructions

- 1** Check the content gauge for cylinder pressure and ensure both levers are off

- 2** Back off the regulator pressure and connect the regulator to SMARTOP

- 3** Open lever 1 (orange) for partial flow and both levers for full flow

- 4** Set the outlet pressure or flow rate on your regulator

- 5** You are ready to go!
