## About Airgas

Founded in 1982, Airgas has long been defined by its entrepreneurial spirit. Our diverse company is powered by 18,000 hard-working associates, dedicated to customer success in the following industries:

- Manufacturing and metal fabrication
- Construction
- Energy and chemicals
- Life sciences and healthcare
- Food, beverage and retail services
- Materials and power
- Government, defense and aerospace

Through 500+ acquisitions and internal growth, Airgas has established a national footprint with locations across the U.S., bolstered by the global presence of our parent company, Air Liquide. Headquartered in Radnor, Pennsylvania, the Airgas network is comprised of more than 900 retail locations in addition to cylinder fill plants, gas production facilities, specialty gas laboratories and regional distribution centers. All of this allows Airgas to deliver the right mix of gases, welding and safety products, and unbeatable expertise — all in one place.

# Your career journey

Airgas is a great place to start your career! The diverse business activities of Airgas allow for many ways to make an impact in the company worldwide. With 1,400 locations serving over one million customers, the opportunities to learn, grow and succeed are endless.

With a deep understanding of product and industry knowledge, an unwavering commitment to safety, and a strong passion for the business, our associates take on every challenge and find the best way to serve customers.

## A bright future

Airgas puts you on the path to leadership and helps fuel your success. Exciting opportunities for recent graduates include a two-year Airgas Rotational Career (ARC) program and an intense branch, sales or operations trainee program. No matter what career path you choose here, our continued evolution and innovation will challenge you to expand your skills, knowledge and passion to achieve your professional goals while contributing to the growth of Airgas.

Airgas, an Air Liquide company, is one of the leading U.S. suppliers of industrial, medical and specialty gases, as well as hardgoods and related products; and one of the largest U.S. suppliers of safety products.
