

Safety Beyond Products

Create a safer environment

- 80+ QSSP-certified safety specialists provide specialized knowledge
- Extensive product selection from leading suppliers
- Multiple shopping options — in store, by phone or online
- National footprint ensures consistent supply

Nobody does safety like Airgas

We know that you can find safety products just about anywhere. However, we take safety a few steps further by helping you to consolidate spend, get the products you need when you need them, and improve your overall safety program. With Airgas, an Air Liquide company, you'll benefit from our national footprint, outstanding customer service and the expert advice of our experienced safety specialists. We'll take a look at your business to develop an understanding of your unique safety challenges and help you find the right products and services to keep you and your employees safe. For us, safety is a top priority and no one else does safety like we do.

From head to toe and everything in between, we have everything you'll need to get the job done

A broad range of products

We offer just about everything you need to stay safe at work. With the largest in-stock inventory – over 51,700 safety products – and, as a national distributor for leading manufacturers, we have access to tens of thousands of safety and occupational health products. So, we are always prepared to quickly meet your safety needs.

Radnor® brand

For twenty years, Radnor has consistently been one of the fastest growing brands in the industry – and for good reason. Radnor delivers the quality, performance and value you need to do the job right and to control costs. Rugged, reliable and priced right, Radnor safety products are the cost-effective alternative to those offered by leading manufacturers.

Expertise to help you perform better, faster and safer

With so many different product choices, safety regulations and site-specific needs, there are many considerations to make before choosing the products and services that are right for your business and your team. Take advantage of our network of safety specialists who are always ready to assist with any challenge you have. Our 80+ safety specialists are QSSP-certified and can perform site surveys to help identify and correct hazards, as well as select the proper products and services. They'll also work with you to develop cost-saving strategies for your business.

Additionally, our specialists are backed by a top-notch customer service team. Our representatives have extensive product knowledge, including all the latest products. They're trained and prepared to answer your questions about everything from product features and benefits to order fulfillment. We also provide technical support – so once you select and purchase your products, you always have a go-to resource during implementation and use.
