

Access MORE with Airgas.com!

Are you an existing Airgas customer with an Airgas customer number from a previous invoice or quote? If so, it's easy to use your customer number to register online.

What if I have not been invoiced or received a quote? There is a slightly different process which can be found by selecting our 'Create a New Account and Register Online' option for brand new Airgas customers.

How do I find my Airgas customer number? It will be shown on the bottom of any prior Airgas invoice. You can use either your Sold To No. (6 digit) or Account Number (5 digit).

What's my username for when I log in in the future? Your email address will be used as your username and you will also need to remember the password you create while registering.

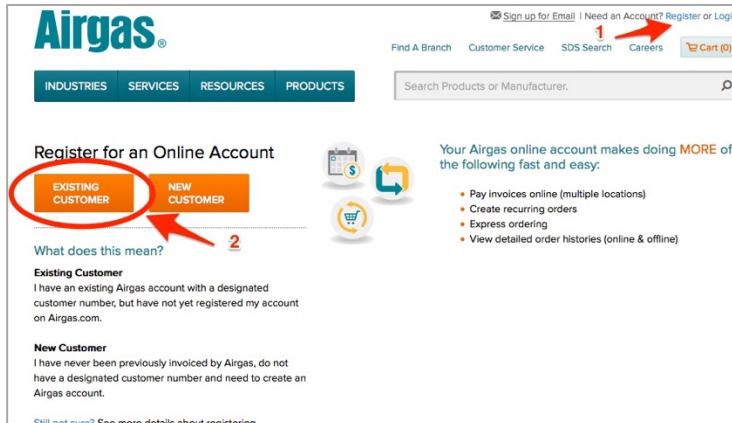

What does my password need to include? Your password must be a minimum of seven characters and also have at least one number.

Are there online videos to help me out with registration? Yes. Navigate to Airgas.com, click on 'Resources' at the top of the page and then 'Tutorials' in the middle of the page.

What if I can't find an invoice number? You can still register with your customer number, but it may take longer to activate the account.

Can I still purchase from Airgas.com while my account is in review? Yes, but while your account is in review, please call your sales representative to make sure you get your contract pricing. Once your account is activated, you will get contract pricing for online purchases.

What if my account has been in pending status for more than a week? Please contact eservice@airgas.com or call 1.800.935.3370 to speak to our customer service team.

Registering online as an existing Airgas customer:

- Click on 'Register' at the top of the screen, then select 'Existing Customer'
- Fill in your contact information (such as name and email address) then click 'Continue'
- Fill in your company's customer number, invoice number and corresponding monetary amount, then click 'Register'
- You will receive a confirmation email that we are processing your registration.
- Once submitted, an Airgas representative will review the registration
- Your account will be in pending status until this review is complete
- Once your account is activated, you will receive a welcome email with your customer number and user name
