

# Airgas Healthcare

an Air Liquide company

Always *There*

- Minimize safety risks for both your patients and your team with access to gas expertise
- Manage inventory proactively and maintain schedules with TGM™ on-site gas management services
- Save time with online tools that manage bill pay, accounting, delivery receipts, and more
- Reduce emissions with certified low-carbon ECO-ORIGIN™ bulk oxygen and nitrogen

## Changing care. With you.

We understand that the challenges of patient care are constantly changing and it is our shared responsibility to deliver higher quality patient outcomes. In addition, you must increase efficiency while ensuring the safety and well being of the patients trusted to your care—and improve your facility's carbon footprint in the communities you serve.

Airgas Healthcare is always there, working alongside healthcare professionals to help promote change that makes our healthcare system more efficient, safe and sustainable. As one of the leading suppliers of medical gases, equipment, and related services, we can help simplify your daily tasks with reliable supply of the products and services you need—so you can focus on patient care instead.

# Always *There*

With Airgas Healthcare, you now have confidence in your medical gas supply and services. With reliable supply and seamless gas management and technologies, served in a sustainable way, you can remain focused on patient care instead.

## **RELIABLE** supply, no matter what

We are always there for healthcare providers, bringing them peace of mind by making medical gases accessible in times of calm and crisis.

## **SIMPLIFY** gas management

We are always there for healthcare facilities—safely managing your gas supply and usage, combining the best of technology and expertise with services like INTELLI-OX+™, Total Gas Management™ and EZ-GAZ™ digital monitoring of critical gas pressure—to ensure continuous gas supply without interrupting patient care.

## **REACHING** carbon neutrality

We are always there for our healthcare customers to help abate carbon emissions of bulk liquid oxygen and nitrogen gas, from production to usage.

Plus, you can depend on our team of Healthcare Specialists with expertise in safe gas supply and delivery systems, respiratory therapy, and environmental, health and safety (EHS)—for any size healthcare practice.

**HOSPITALS & MEDICAL CENTERS**
