

## EZ-VEND<sup>®</sup> solutions

VMI and vending for visibility, control and savings

- Improve your procurement process and increase efficiency
- Get visibility into supply usage and achieve accurate forecasting
- Eliminate stock outages that slow or stop production
- Control and secure your inventory 24/7

Ask us how we can help you reduce product use by up to 40% and free up your time so you can focus more on production.

### Vendor-managed Inventory (VMI) and more vending solutions

Having the right tools available when and where you need them is critical to meeting production goals. A slow down to look for supplies or a stop in production because you're out can be expensive. EZ-VEND solutions from Airgas, an Air Liquide company, can help you gain efficiencies and keep your project on schedule. EZ-VEND procurement tools save you time with improved ordering, receiving, stocking and distribution. Vending machine solutions located right on the project site help you secure supplies close to where they're needed, and control use while providing complete visibility via reporting tools that help you better organize, stock and forecast. Airgas VMI services can also manage all of this for you by placing an Airgas supply chain expert right on your site.

# EZ-VEND® solutions

Visibility, control, savings

## Vendor-managed Inventory (VMI) – one size does not fit all

Airgas offers a customizable supply chain solutions designed to ensure quick and easy access to the gases, tools, maintenance, repair and operations (MRO) supplies and Personal Protective Equipment (PPE) you need, without sacrificing time and productivity.

EZ-VEND VMI services help you efficiently manage your inventory and includes ordering, stocking and monitoring at the point-of-use to eliminate runouts and emergency requests. VMI can also dedicate an Airgas supply chain expert, either right on your site or via your local Airgas branch, to help you better manage your product logistics systems.

- Reduce inventory waste and improve calibration schedules with increased visibility
- Improve flexibility at both local and national levels with customizable vending solutions
- Enable rapid deployment of new or updated SKUs with configurable equipment right on your site—you'll quickly realize cost savings attributable to product conversions
- Analyze usage data and increase welding, safety, gas and other efficiencies with unique and customized digital capabilities
- Free up your team and focus on your production processes while Airgas manages all of this for you

“ We are dedicated to making your job easier. Take advantage of our quick and cost-effective solutions to provide better visibility, control and savings for your inventory. ”
